NEVADA DIVISION OF ENVIRONMENTAL PROTECTION

This project is approved for activation:

In accordance with Nevada Administrative Code (NAC) 445A.66715 subsection 2:

2. Within 30 days after the completion of a water project, the supplier of water shall certify to the Division or the appropriate district board of health that the water project was completed in substantial compliance with the plans and specifications approved for the water project by the Division or the appropriate district board of health.

After constructing an approved project, a Public Water System (PWS) must submit this *Construction Completion Report* to the Bureau of Safe Drinking Water (BSDW) before a water system facility is activated. This includes any source, water quality treatment, storage structure, pumping facility and distribution project.
